STYLE

Do a double take.

One hat, two ways. Double down!

JAN 21 2016 *by* KENDRA COLLINS

If you've ever been into one of our shops, you'll know that we encourage everyone to try on as many hats as possible to find the perfect hat match. We like to see our hats as gender-neutral.

If it looks good on you, wear it!

With that in mind, our friends at [Canvas Styling](#) put together a few looks featuring the same hat, worn in two different ways.

One hat, double fun.

The Loyalist is a perfect pick for spring and summer. Paired with a casual dress, sunnies, and boots, the Loyalist offers a refreshingly easy look that's also just a teeny bit edgy.

Wear the Loyalist with a button down shirt and chinos
for a polished casual look that just won't quit.

Extra style points for a feather.

We LOVE this look for winter-to-spring. Our Surewin knit cap is the ideal match for a cozy, sporty ensemble.

Throw on some sparkly accessories and you're done.

Simple with a pop of color is always a good look.
The Surewin comes in strong here as well!

Wear our Good Boy with a sweet floral print
and some delicate accessories –
it's the perfect balance of edgy and sweet.

The Good Boy is also date night perfection.

So go ahead, mix it up!

And show us on Instagram @GoorinBros!

We always love to see your great outfit pics.
